

Pricing Offer remains valid for Super Sales Managers

In our last post, we talked about being able to [buy custom amount of credits](#) and mentioned that if you were given an offer but you customized the amount of credits, you want to buy, the offer clears out. Well, that has changed. From now on, our pricing offer remains valid for Super Sales Managers.

If you are a Sales Manager and you are managing a Sales Manager, you would get the chance to buy 1,500 Credits for ?2,400. This is simply because you might want to be delegating users to that Sales Manager but however want to keep buying cheap and selling to your users. This growth management plan was built to support you.

If you choose a higher or lower amount to buy, the pricing goes back to standard but when you change your order back to 1,500 Credits, your pricing offer remains valid at ?2,400.

Are you a Sales Manager yet? [Click here](#) to buy 15,000 Credits at ?24,000 and upgrade instantly (if you haven't done so already). As a Sales Manager, you have your own deck for managing users and your transactions with them.

Thank you for choosing Mobi2SMS!
